There is a time to keep silent, and a time to speak." (Ecclesiastes 3:7)

Now is the time for the voices of the faithful to be heard!

To: President Obama, Majority Leader Reid, and Speaker Pelosi

We are Americans, and people of faith, and we're concerned about the health of the women of the United States. We applaud your efforts to ensure affordable, quality health care coverage for all. We now lift our voices of faith calling upon you to use the powers of your office and your powers of persuasion to ensure that women's health is treated fairly in health care reform. Women must be able to purchase private or public health insurance that offers comprehensive reproductive health care, including abortion care. We are working diligently to ensure that health reform passes and that it protects women's right to purchase the health insurance plan of their choice
